

RIVERS POINT CIVIC ASSOCIATION – Meeting Minutes – June 3, 2017

This meeting/social took place at the home of the Baker's, Dennis and Ellen Poolside. We, as a neighborhood community, thank Dennis and Ellen for their hospitality. Hamburgers, Hot Dogs, and all the fixings were supplied by the Rivers Point Plantation Civic Association with other dessert goodies brought by our members.

Informal chats were conducted personally by Georgie Rock with the members advising of any issues that needed to be addressed to the community whether it be, ARC issues or questions that members had on other issues. There were several issues reported by neighbors not handling property issues which were concerning to them. These issues will be attended to in the very near future. Other issues concerning the neighborhood were that the County Filtration System at our Main Entrance Way on Oyster Point Row had not been completed on the proposed time. Our Main entrance way and other construction areas completion date will not be until sometime in the Spring of 2018 as per the Project Manager of the County. Hopefully, this date will have this whole area cleaned up as expected at our entrance way and Folly Road areas.

A good time was had by all in attendance and the enjoyment of the cool pool waters on such a hot Charleston Day. Our thanks to all who brought foods and also the Baker's for their hospitality.

Respectfully Submitted: Georgie Rock, President - Christine Lewis, Secretary
